GLOBAL CHALLENGES, CHEMISTRY SOLUTIONS
American chemistry is essential to our economy and plays a vital role in helping to solve the biggest challenges facing our nation and our world by driving innovations that make our lives and our world healthier, safer, more sustainable and more productive.

Unprecedented access to domestic natural gas is helping to drive a renaissance in U.S. manufacturing. Renewed competitiveness in America’s chemical industry is helping to create jobs, grow payrolls and generate new tax revenue, affirming the chemical industry’s role as the cornerstone of our country’s economic future.
